# Intensive Drama Programme

This summer, students from both Junior and Senior High will be studying Drama in a 3-day intensive program.

The program is designed to introduce script reading, the auditioning process, warm-up skills, dramatic delivery and presentation skills.

Equally important topics like voice training, projection, and stage presence will be covered and put into practice.

The students will put into practice the lessons from all three days of study and give their best efforts to perform selected scenes onstage for an audience.

Join our Drama Programme this summer, and make all the world your stage!
